

Your Growth Partner

LQ is a digital customer acquisition company with a focus on helping clients with sustainable, long-term growth.

For over 15 years, we've partnered with Fortune 500 brands to help them win more of their most profitable customers and open up entirely new customer segments to grow their business. We do this by taking the guesswork out of where those customers are – and use the power of data to identify, target and convert your most qualified and higher converting leads.

The LQ Difference: LQ Cadence

At LQ, we look at your data a bit differently. We're obsessed with lifetime value, and we partner with your acquisition team to constantly measure whether we're hitting the mark. Our data and analytics platform, LQ Cadence, ingests your data via API from over 15 places, including ad platform, web analytics, search engine, social media, call center, CRM and transactional data. The result? You measure across your full funnel—and convert your best customers.

Paid media services

SEO

Make it easy for your customers to find you. We do full technical audits of your backend code, pinpointing places to optimize your pages. We might even suggest new pages to appeal to your target audience.

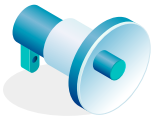

Paid search

Maximize the reach of your ad program. We use customer data to train search engine algorithms, which improves your ads as they go and helps you discover new, profitable customer segments.

Lead buying

There's a smart way to do lead buying. We help you buy only the most promising leads, benchmark the cost per lead, and track how they perform all the way down the funnel to conversion.

Affiliate marketing

Relationships matter. And we have them. We build a long-term strategy with affiliates who not only promote your brand but generate you some serious cash. We also work closely with your platform providers, publisher base and your marketing team to deliver a completely transparent format for success.

Paid social + display

Take full advantage of new hyper-targeting features on Facebook to tailor your message to your key audiences. We'll help you blend your own search data with our first-party data to create powerful look-alike audiences and detailed segmentation. All so you can acquire significantly more customers at a lower cost.

Conversion rate optimization

Every step in your customer journey can be designed to convert new customers. Our testing and optimization teams work alongside you to develop strategies for your web pages, mobile experiences, and new customer segments. We're motivated to keep optimizing because we're paid on performance.

Contact center services

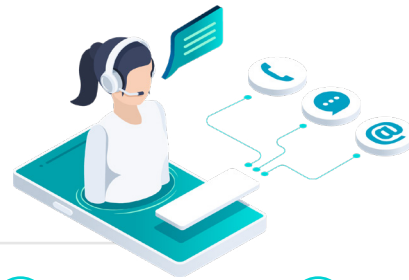

Drive

30-35%
more qualified leads

Digital acquisition is about more than just ushering leads into your funnel. You also need to move quickly to turn those leads into quantifiable sales opportunities. That's where we come in.

Using our contact center, you can capture 100% of your leads. We handle your inbound and outbound contacts quickly and consistently pass along the most promising leads. So your sales team can focus on what they do best: closing deals.

Phone/SMS/
Text/Email

Field inbound leads

Be sure that every prospect who reaches out gets to speak to a live agent right away.

Revive older leads

We follow up with prospects as needed, whether they've fallen off the radar, slowed down or hit a snag.

Move fast and first

To win someone's business, you need to get them on the phone, fast. We answer leads in 15 seconds or less.

Set Appointments

Make it easy for prospects to connect with you. We take care of making the appointment—you take care of making the sale.

Nurture at each step

We're quick to follow up with promising prospects and keep them engaged at every step.

About LQ Digital
